

THE ONE HEART CONVERGENCE with the BUSHMEN in Spain, Jan 2016

The Universal Proclamation ONE HEART CONVERGENCE with the BUSHMEN in Spain Jan 2016 - a Gathering of Indigenous Elders of the world, held in Barcelona Spain - 14 to 17 January 2016

It is TIME to honour the Divine Memory of the Creator's Original Seeds that exist within us, A special thank you to Roy Littlesun whose vision brought about this gathering.

Here is a link to a video of my perspectives of the Spain event - <https://www.youtube.com/watch?v=QQuQBMOu9KM>

The San Bushmen Izak and Lydia Kruiper who are of the Khomani San Peoples came from the Kalahari in South Africa to attend the ONE HEART CONVERGENCE in Barcelona that was initiated by Roy Littlesun. Many important people were part of sponsoring and realizing the very amazing convergence of Indigenous Elders from around the world, who we thank for their attendance. The reason for the event was to primarily establish the Universal Proclamation of which the details are shared in the later part of this video. The event itself was a 4 day process of teachings, ceremony and self examination for the people who took part.

This video - <https://www.youtube.com/watch?v=QQuQBMOu9KM> - shares sacredly some of my perspectives from the footage I took and at the same time I feel it is important MEMORY to hold the wisdom of. All is shared respectfully.

For myself Sean Caulfield it was an honour to be part of travelling from Cape Town with the San to Spain and to be part of helping to bring the most ancient Memory of the San Bushmen to people and translate the wisdom of Izak and Lydia.

What the gathering is about: "The essence of the One Heart Convergence is to create the Agreement of the divine plan to make Earth the Portal of Peace, based on the collective consciousness that All Is One. Therefore the Prayer was made to have the right people come, whose Spirit resonates with the Call. The Agreement includes the Document (Universal Proclamation) to be sealed in a four day Examination/Ceremony, witnessed by all the Divine Ones of the

Universe (including the Ascended Masters and Ancestral Spirits) who have accompanied all who have come from around the world. Afterwards the Vow is made by all who have agreed on the above to help with the sharing the Universal Proclamation with all of Humanity. This Document will then be sent to World Leaders"

We are becoming consciously aware that Our Spirit has AGREED to come to EARTH to be in service to the CREATION of the Infinite Universe, so as to release ourselves from the most extreme density that this planet holds in the physical dimension, this is our PURPOSE, that is in service for all the Universe, what an honour. The meeting of the indigenous Elders at the UNIVERSAL PROCLAMATION One Heart Convergence has brought the most ancient roots from the 4 directions to unite and weave as ONE HEART, like the prophecy of the CONDOR & EAGLE, so as to be able to create EARTH as the PORTAL OF PEACE. From here in Barcelona this vibration will resonate exponentially, by sharing with humanity the ceremonial ashes that hold the memory. We ate mostly healthy good Macrobiotic foods and this dovetailed with the teachings of the One Heart which are all about our blood quality and how we eat such wrong foods from what we are designed to eat. From applying the ancient teachings of the understanding that our blood quality, which is determined by the foods we eat, brings us to raise our vibrations with how Creation is growing and evolving us past our physical limitations, we need to look at this collectively, but it's such a big tangled up mess governed by unconscious corporate systems, it will take long to sort out, but at least we have to try be the change needed by healthy living. However the Divine Plan is allowing for this for all to change to have to return to the sacred ways. I suppose everything happens for a reason, but when we wake up we become conscious of how we must change, and we transcend from this.

On 16 Jan 2016 it was 7-Imix/Alligator/Dragon, 7 allows for the intention of "Reveal", Dragon is a reconnection to the Primordial Heart. It is when the new phenomena of the collective unconscious comes to the surface, the following day it was 8-Ik/Wind, 8 allows for the intention of "Justice and Harmony", and Ik is the Lord of Dust, when the new phenomenon is communicated and disseminated. We started the 13th 20 day cycle of the Tzolkin that brings the fruits that will bare the seeds for the next cycle.

After much dense deliberation and a resolved realisation we come to an understanding and it was agreed to establish the Universal Proclamation.

You can watch the footage and photo's on the video.

Thank you

Sean Caulfield
