

The 9 Level Mayan calendar completion & continuation - April 21, 2013

We owe much to the ancestors of the Maya who kept careful count of the sacred day keeping of ancient time and passed this onto the present modern Maya day keepers.

The weaving of 2 calendar cycles, being the 260(13x20) and 360(18x20) day Mayan calendars aligns from the beginning to the completion of the 9 levels of the Mayan Calendar on 28th October 2011. This completion is allowing for the birthing of a new consciousness that can be seen in the new beginning of the Mayan calendar cycles and their continuation. Thus aligning to a continuation and new beginning of all 9 levels. However, after the 28th October 2011 nothing is set in stone, as the ancient stone Stele with all the dates that map the 9 levels completed and we reach the Great Unknown. Here is a link to the structure of the 9 levels that was worked out from an ancient Stele, found in Mexico http://mayanmajix.com/9steps_eng.jpg here is some valuable Mayan Astrological information to be found in the learning lab of Mayan Majix http://mayanmajix.com/lab_F1.html, the Mayan 9 levels completion date was interpreted by Dr. Calleman. www.calleman.com

Please Note: this is my own intuitive way of looking at how the cycles of the 9 levels continue, which is ever evolving, it is very complex. Yet for me very important to feel how this maps our current times. Nothing is random.

The continuation and new beginning of the large 260 Tzolkin of the 256 year planetary cycle (aligns to the same size as the 7th Level) is 360 days x 260 = 93600 days and the large 260 Tzolkin of the 12.8 year Galactic cycle (aligns to the same size as the 8th Level) is 18 days x 260 = 4680 days. The 8th level is 20 x smaller than the 7th level, so the shift could be felt in a condensed increase of creations frequency and when we entered the 8th level in 1999, on the 7th level what happened in roughly 19.4 years happened in only 360 days on the 8th Level, and what happened in 360 days on the 8th level happened in 18 days on the 9th level with it being a further 20 x smaller. We have now reached top speed and bringing everything into the moment and to be seen for what it is, allowing for the hearts ethics to rule with transparency and truth.

On the continuing Galactic cycle of 12.8 years, on 18th June 2012 we completed the first of 20, 13x18 day cycles, which was 234 days and this connected consciousness to a new beginning through Alligator, allowing the new phenomena from the collective unconscious to come to the surface. On 19th June we started 234 days of Jaguar, a connection with the core of the earth and to the deep subconscious that steadily raised to the surface within a 234 day cycle, until we reached the new intention of Kiej/Deer on 8th February 2013, bringing the recreation of spiritual strength in nature.

My study of the Mayan calendar brought me to the wisdom of Dr. Carl Johan Calleman, www.calleman.com, who managed to sacredly work out the 9 level calendar of the ancient Maya. I/We owe a lot of gratitude to the Maya and this remarkable man's discovery. Thank you.

My Sacred Journey to understanding the Divine cycles of time

A deeper desire to want to understand life brought me to the sacred Mayan calendar. My journey to the Maya land of Guatemala, to the temple city of Tikal and a Pilgrimage journey with the Maya Elders and Day Keepers who shared their teachings and ceremonies has fueled my spiritual quest. Here is the website of Tata Wondering Wolf who was guiding our pilgrimage, showing his sacred journey in a film called www.shiftoftheages.com

The Complex Cycles of Time

The Complex Cycles of the Mayan calendar are universal force fields that hold the light of life in position so that it can best support itself. The Mayan calendar is a very complex system of cycles that overlap and converge according to a sacred harmonic rhythm and frequency of sacred Universal Creation that we have DREAMED into existence. My understanding of this has brought me to not only work with the cycles of the traditional 260 day Tzolkin, which is what the modern day Maya Day Keepers work with, but also to work with the almost forgot and hardly in use ancient 360 day Tun calendar. If one studies the work of Dr. Carl Johan Calleman you can come to a better understanding of how these 260 and 360 day calendar cycles overlap each other through the 9 levels of Creation that manifested into action some 16.4 Billion years ago, interestingly enough this is very near to the date that modern scientists estimate the Big Bang took place.

All the 9 levels combined are a time span of 16.4 Billion years and this is one large 260 day Tzolkin cycle. Except for the top level, each level of the 9 levels are a large 260 day Tzolkin time cycle of which each level is smaller by 20 X from the level below it, thus allowing for time to feel like it has sped up, especially over the last 20 years, which brought about the greatest acceleration in our collective consciousness, leading up to the completion of the all the 9 levels on the 28th October 2011, with 13-Ahau.

How does this all effect us now that everything has completed? Like anything that completes, it integrates itself with what it has become, like a fruit. The fruits continue to live by manifesting the seeds that initiate a new beginning. We are thus both the fruit and the seed.

One can quite comfortably say that our lives and most of the human collective consciousness on Earth is going through radical changes to perception. We are much more than we think, we have evolved through all the 9 levels and returned to a new beginning, to the potential of the ancient hearts full remembering of its memory, seeing ourselves for what we truthfully and transparently are.

The reference point for the start of a new beginning and a new Golden Age of spiritual understanding is from the 29th October 2011 with a continuation and new beginning of all the 9 levels. This allows us the potential to see ourselves for what we are, with full transparency and truth. Hence, because there are no filters like there were before the completion of all the 9 levels, nothing can be hidden without some sort of inner conflict with your own personal truth. When we release ourselves from our lies and deceptions we open a door to our true destiny and our hearts purpose is felt as a gift from the Cosmos. When we release ourselves we heal ourselves from our dis-ease within our physical body.

In the ancient calendar system that I share we can see what is to come in the calendar cycles. These cyclical calendars are all about our intuitive awareness and seeing the similarities and differences of the world around us, feeling this and understanding this with regards to the Mayan calendar cycles brings us into our intuition which has our best interest at heart.

The Mayan calendar allows one to be conscious of the ancient cycles of Sacred Time that emanate now, from the ancient futures Divine Source of Creations evolution. Understanding this may help you align to your intuition, to a greater purpose of life and where we as the collective conscious are, yet it is unconditional and up to your individual interpretation.

I see "TIME" as not only continuing as waves into the 7th Night on all levels as Dr. Calleman explains. Fully manifested through all the 9 levels, it could be that the 260 day Tzolkin continues, beginning again with a new Tzolkin cycle on all levels from 29th October 2011, birthing a new world and a time of great change to Truth of Spirit. Each of the 9 levels is a big 260 day Tzolkin cycle, thus each level starts again with Alligator and thus connecting life to the Cosmic primal beginnings, where we first started to Dream Awake and dance to the song of life. We have now come full circle, however we are still collectively arriving, waking up and rising with the new Sun, learning to listen to our heart, and understanding that we are One, the importance of this is to understand that how we treat life is how we treat ourselves.

The purpose and destiny of life can be seen from the day we are born into, we can understand this through the study of the Mayan calendar. This is what the Maya people saw in their ancient calendar systems. Calendars to most people are just a way to plan an event or remember someone's birthday. To the Maya, everyday had purpose and meaning on a deeper spiritual level. It is the 260 day Tzolkin calendar that is the basis for understanding this. The purpose is weaved from the alignment to how the combination of 20 aspects match up to the 13 tones intentions, which harmonically resonate life. Find out your Mayan birthday here. www.mayanmajix.com. At this point I would like to thank the late Ian X Lungold of Mayan Majix for his passion and inspiration to spread his understanding of the 9 level Mayan calendar, it was through Ian's DVD presentation that I was first inspired to want to understand, this led me to Dr. Calleman in 2007.

So it is evident that even though the ancient written inscription, Stele 1 from Coba Mexico says that the 9 levels of the Mayan calendar completed on the 28th October 2011, with all levels reaching 13-Ahau (celebration of completion), that something continues to drive the further evolution of consciousness. In the original Mayan Creation story it says that 9 Cosmic forces will fully descend upon earth, this article of Dr. Calleman talks about this, "Dawn of Unity Consciousness", written on 18th January 2011. http://www.calleman.com/content/articles/dawn_of_the_unity_wave.htm

And this article is written just after the end of the Mayan calendar on 9th November 2011. http://www.calleman.com/content/articles/MayanCalendar_has_come_to_End.htm

At the end of the Mayan calendars 9 levels of Creation, Dr. Calleman explains that he felt the Tzolkin ended and all the 9 levels continued into the 7th night from the 7th day.

Article about the 9th wave continuing into the 7th Night, written on 18th November 2011. <http://www.calleman.com/content/articles/The9thWaveContinues.htm>

This is a link to a graph that shows the continuing waves of the 9 levels. <http://www.calleman.com/img/graph2012.pdf>

The 7th day, that was the 13th cycle of all the 9 levels met at a still point in time on 28th October 2011, allowing for total completion, total fruition and thus the fruits of the Tree of Life are now fully ripened, ready to disperse its seeds. In a sense the 9 levels, which mirror the evolution and creation of the Universal Tree of Life, has set the foundation for the lives we will now live. We are the fruits and seeds, and it is up to us how we further evolve and grow.

I have purposefully brought in what Dr. Calleman says because I value that he is a source of great strength in sharing what the true facts of the Mayan calendar are actually saying, from the perspectives of the ancient inscriptions of the inhabitation of the

ancestors of the Maya, and other ancient cultures that worked with calendars in central America, like the Aztec and Olmec etc. and we have the choice to understand and discern for ourselves. It is through my deeper studies that I am inspired to do this and to me my life resonates to the sacred Mayan calendar cycles of creations divine timings.

For the latest from Dr. Calleman www.calleman.com renowned Mayan calendar researcher and author.
