

## **The AWAKENING of Our SOUL Memory, and Reclaiming Our POWER - Sept/Oct 2016**

The new 360 Day Tun Mayan calendar starts on 2 October 2016 and the new Tzolkin 260 days starts on 21st Oct, things may seem like they don't want to change but as the cycles come to fruition and start again we will feel a new Divine Stimulus and a SHIFT OF CONSCIOUSNESS.

As we near the end 2016 it's as if our worldly circumstances are hanging in the balance, it's as if things are on the verge of becoming a shocked reality, BREXIT was one of them. We could have hardly predicted the outcome, yet it is understandable that the people wanted to reclaim their collective Soul and live in truth to their Heart's MEMORY. This is the microcosm of what is unfold on a global level. Who knows what next will happen in our world that we are watching carefully, most amplified is the war in the Middle East and the Election in the USA, it does seem probable that Hilary Clinton will be the next President of the USA, but with the way the world is changing who knows. Trump has brought a lot to the attention of ordinary people.

TIMES Evolving Cosmic energies of the Divine Universe are changing the density of our bodies physical structure so as to become higher and lighter in resonance, this is shifting us and releasing us from the pasts immaturity, our Mind is aligning closer and closer to the HEART centre that holds the MEMORY of Time. By this Divine Evolutionary process our subconscious Memory is being activated to AWAKEN, causing a resistance WITHIN us from those immature reflections that do not want to CHANGE and do not want see the truth of what our MEMORY holds. The truth is that in order to evolve and move forward we must consciously HEAL and live True to our Heart's MEMORY, as we do this we feel better and happier because we CLEAN our Light of its impurity and the shadow aspects that want to consume it and keep us in a state of amnesia. We are inevitably waking up and becoming conscious of life's biggest picture and our purpose as CREATION in Human form. What is going on in the collective MIND of Humanity can be understood as the resulting growth to fruition of the Cosmic Tree of Life. This can be further understood in the growth cycles of the 9 Level Mayan calendar pyramid of Divine TIME. We have accelerated as a UNIVERSAL consciousness to a TIME where all the cycles of evolutions growth have met up and together are continuing through 13-Ahau/Light which transcends all to live in truth unto itself. This was initiated from the Original intentions of GREAT MYSTERY, and brought the LIGHT of Creation to arrive at the precipice and top of the Divine PYRAMID of

Time in 2011/12. We are now truly feeling the effects of what NEW EARTH is asking and changing us by, the Divine Creative Cosmic Forces will not support that which does not have the best interest of the People and the collective Creation at HEART.

We as a Human Spirit are housed in a physical body and are NATURALLY being pulled into ALIGNMENT with Creator Source, the Times that we are transmuting and transcending through NOW are more than ever dissolving the illusions of separation. The separation has been caused by a natural process that evolved the MIND through various stages of growth to arrive at the fruition point (top of Pyramid) that we are now at and through our Awakening process we are being SHIFTED by. This is inspiring our self realisations to understand that the Mind alone is on course to crash burn, we in our minds EYE need to start to look "Within" to the Heart and HEAL our Memory, this will bring a return of the SOUL to become Whole once again. We need to eat and chew sacredly not only on food but with our thoughts, because anything that is not pure will be poison to our digestion. We are supported by Creator when in service to stand up against the past systems that no longer serve life as we give birth to a sacred New Earth.

We have to ask, WHAT DOES IT MEAN TO HEAL OUR MEMORY? It means to live in tune with the Universal Frequency of our Creator that created us to be the highest aspects to CREATION and hold the responsibility of Nature's Pureness and be the guardians and keeper of the garden of EARTH, we are returning to this Time, we are returning to the "Garden of Eden".

Today 29th Sept 2016 is 4-Tijax/Flint, we are nearing the completion of the so called 57th Universal Day of the 9th Wave, being an 18 days cycle that aligns to the Mayan calendar's 360 day Tun, this has brought a great surge of energy that is breaking through and transmuting by the resonance it comes with of 9-Ahau/Light, forward movement, flowering, completions, honour of memory... 9-Ahau/Light is from 14 September to 1 October being the last of 20 cycles, each 18 day in duration, of this 360 days Tun from 7 Oct 2015 to 1 Oct 2016 held by 5-Kaan/Serpent, because we are in a TIME where all CREATION now resonates maturely, it means that these 360 days has brought unfiltered empowerment for transmuting the poison of past immature ways and understandings.

From 2 Oct 2016 we start a new 360 Day Tun of 20x18 Days being the so called 10th Galactic Day of the 8th Wave, this is then held be the next intention and aspect to Creation, being 6-Keme/Death, 6 creates flow and brings momentum, Death

transforms, resurrects and rebirths. In terms of this resonance we might already feel a great Death to the old immature ways. To fully grasp this we need to study the 9 Level Sacred Mayan Calendar's complexity that resonates to the ultimate consequence of CREATION'S Evolution of Time.

From 2 Oct we go into a new 18 day cycle of 10-Imix/Alligator, creates challenge, this brings a manifestation of sorts, Alligator brings to the surface the new phenomenon from the collective unconscious.

Thank you...

Further information... Everything below this is some extra reflections and notes, sorry if might repeat myself. Sean Caulfield... Many blessings.

The Intention of the 9th Wave is stimulating and pulling our World into Right Relation with the Divine Universe. How this is felt is through etheric waves of ebbing and flowing energy of an  $9+9=18$  day cycle, each 18 days is a peak of energy and a valley that processes it. We on 23rd Sept arrived at a peak being the midpoint of the 57th Universal Day. Each 18 days can be seen as holding an intention and aspects to CREATION, we are at present in 18 days held by 9-Ahau/Light. This means that we are about to complete this 360 day Tun cycle on 1st Oct and it further means that we go out of a valley in this 360 days and into a peak in the next 360 days of the so called 10th Day of the 8th Wave starting on 2nd Oct 2016 which is also pulling all into Right Relation so as to tune all LIGHT with CREATIONS Divine Will. Since we reached the summit of all 9 Levels of the Mayan calendar all has fully matured to its originally planned for potential.

Like when a surfer sits on his surfboard in the Ocean, Time can be understood as moving towards us as waves of energy, sometimes we surf the wave and other times we allow it to go through us, but we can not avoid the wave. Like time, a wave is inevitable, and a wave of Creations sacred energy stimulates life to further evolve through a process of transmutation that constantly changes the dynamics to exist on higher and higher levels, we are reaching higher and higher platforms of understanding.

To understand life is to understand time, I am not talking about the measurement of physical movement, I am talking about a spiritual resonance that is felt from an understanding of the cycles of UNIVERSAL TIME, this is reflected in the Mayan calendar's.

I am and we are the birthing awareness at the forefront of TIME'S synchronicity... our STAR'S collective PURPOSE is to cure ourselves of our insanity... the Universal CONSCIOUSNESS is taking us through the understandings and completions to humility... as the SUN rises we awaken to align our Mind and HEART with its complexity... this unifies Heaven and Earth "Within" so as to create the 3-Fire TRINITY... by this consciousness we are freed from the outer density... we then understand the importance to look "Within" and connect daily to our Divinity... that shines our individual and collective STAR LIGHT for us to see our destiny... the more we understand the more we feel comfortable to be Universal Ambassadors of Love and Peace for all multidimensional reality... and create Earth as a Universal PORTAL OF LOVE for ourself and all the races of Humanity... I LOVE all reflections that are myself's sensitivity... that we are and I am...

GREAT MYSTERY - One day we will all be freed from this density and arrive in another place, I hope to meet you there, but until then we are here to experience and learn by transmuting and transcending this reality. One might ask why are we here to do this? The reason gives us our purpose. Why we are here is ultimately to be in service to Creation, this is our purpose, although one might ask, what is this service to CREATION asking of us, it is asking of us to create ourself to be ONE with everything in the mirror, to be ONE LIGHT shining as a STAR starts with being at Peace with yourself "Within", once we reach this place we shine TOGETHER as our solar systems STAR of the UNIVERSE.

We are here to shatter the mirror, to break the illusion that separates us and brings us to think that everything is outside of who you are "Within". Now that you have done this you can "WAKE UP" and make amends. This starts with forgiveness.

The Completion of the ORIGINAL INTENTION... 11-Eb/Road, clarity, conductor of destiny - written on 23 Sept. According to Creation's Divine cycles of growth of the COSMIC Tree of Life we can understand that every ending is the result of what the Original Intention was, this is how the cycles weave together the supporting structures so as to further grow the Tree of Life. So what was the original intention that birthed and grew our UNIVERSE, what is it now ending to complete as? This is important to understand because now that all the cycles have completed to a meeting point in Oct 2011, this awareness sets the tone for what begins and what we are now BIRTHING as Creation in human form. What we are beginning can be seen by understanding our most ANCIENT Indigenous roots and

the evolutionary cycles of spiritual Time of the Universe that are reflected in the understandings of the sacred 9 Level Mayan calendar cycles. This study starts with the weaving of two calendar cycles called the Tun and Tzolkin. At present these cycles are both in a phase of completion, the Tun 360 day cycle ends on 1st October 2016, and the Tzolkin 260 day cycle completes 21st October 2016, so this synchronistic convergence of both cycles nearing completion is bringing a strong influencing energy. We are being transmuted and transcended past physical limitations to give birth to a NEW GOLDEN AGE of Spiritual Light, this could be seen as what the ORIGINAL INTENTION is allowing for, for PEACE & LOVE, but it's the resistance to the unknown that sparks fear and inner conflict and turmoil which spill over into the physical world.
