

**EXPANDING HORIZONS, Understanding the Code of Time - 6 June 2018.
Written by Sean Caulfield**

Over the years in my writings I attempt to explain the "changes" in TIME. I feel that if the minds LIGHT understands what it is changing by it will resonate to a field of harmony and balance, we will understand ourselves and invite PEACE & LOVE into our world on our birthing NEW EARTH. For me it is important to understand that the "change" is to a Divine schedule and Time order, and not random. This natural order of the growth of the Cosmic TREE OF LIFE to fruition, reflected in the 9 Levels, is bringing in 2018 the end of the completion of immature TIME, and it is bringing the completion of the beginning of mature TIME. We are at the last stage of the grip of immature TIME. My sense is that once we have fully completed the growth of Time we will not be able to "Correct the Wrongs" of our past, the opportunity is slipping away as we move into the future, but the understanding is that if we work on self and walk true to the Heart we are automatically healing the out of sync karma of the past. The mature time waves that we are living through now since 28 October 2011(13-Ahau/Light) is actually supporting us to heal all the immaturity of the past, this immaturity allowed time to live incomplete to the Plan of the Divine Creator of the Universe, hence the incomplete premature mind caused many problems for itself without understanding that what it was doing was to itself. Humanity is ultimately born from one SEED that holds the Code of Time, this Seed of Cosmic LIGHT has grown to create the TREE OF LIFE of the Universe, our mind does not see the collective TREE as itself unless it looks "Within" to the Heart. The physical dimensions "want" traps us and feeds on our Soul, to create a balance we may choose to let go the mind and jump with trust of our truth, aligning to our multidimensional Universal SPIRIT.

THE CODE OF TIME EVOLVES ITS CREATION TO CREATE THE INFINITE UNIVERSE, this is reflected in the Mayan calendars mathematical sequencing of the numbers of days in time that weave Creation together to create the Cosmic tapestry of life. On a micro and macro level our life is woven by this and woven into this Cosmic Tapestry, by our choices we create our own Universe but this is but an aspect of the Greater Universe that the Creator emanates into BEING from the Great Mystery of the Void "Within", everything out there is a reflection of what is "Within" you, nothing is separate.

"THE IMPORTANCE OF LIVING TRUE TO THE HEART HAS NEVER BEEN MORE VITAL FOR THE MIND."

Many are feeling GREAT CHANGE in these times of 2018, for me "understanding" the 9 Levels of Creations evolution as a map of Times GROWTH to completion helps to give reason and purpose to life and understand the unfolding CHANGE. See link to a graphic of the structure of the 9 Levels - <http://theuniversalfrequency.com/mayan-calendar/the-structure/>. I Sean Caulfield first learned about the Mayan calendar through the Dreamspell in 2006, then in 2007 when I came across the work of Dr. Calleman (www.calleman.com) I found out that the Tzolkin of the Dreamspell was off sync from the TRUE TZOLKIN of the 9 Levels, and further than this I also learned that the traditional Maya worked with the True Tzolkin that aligns to the 9 Level Mayan calendar pyramid of Universal Time. At this time I trusted to surrender to the flow of the Universal "Divine Plan" reflected in the True Tzolkin, I felt good to do this as it restored my LIGHT into a balance with the naturally ordered sequential TIME WEAVE honoured by the Maya Day Keepers for thousands of years.

To stay conscious the minds AWARENESS is awakening ITSELF to a faster frequency than ever, the frequency is faster than we can think, evolution has accelerated TIME faster than the speed of thought, this is spinning our awareness out of the mind and into the HEART. The sequences of the coded memory of Time have woven the cosmic tapestry to completion, but the mind needs to choose to live according the completion of 13-Ahau/Light on all NINE Levels, by this choice the mind awakens to the HEARTS FREQUENCY.

The Hearts frequency resonates to Flawlessness. It can be understood to be the activation, in 2011, of the NINTH WAVE'S Flawless Frequency of Cosmic Light that is directing our human destiny to live through the Heart. The 9th Wave is a totally natural, fully mature, Cosmic Frequency that Earth is in resonance with, the Universe has attracted her to be in resonance with this highest of all frequencies because the Divines Plan is allowing Earth Mother and all her children to transmute all the flaws of immature TIME, the flaws are held in the shadow aspects of the immature mind, hence the off centered Human condition holds the flaws that are hurting EARTH so much. It is time to let go the mind, and to connect to the Spirit of nature and understand our role as her chosen

care taker and guardian.

This Tun 360 days, that can be seen to be held by 7-Manik/Deer, from 26 Sept 2017 to 21 Sept 2018 aligns to ""completions"" and a returning of our collective spirit to the primordial Heart and the humility of NATURE, Deer is our guide for 2018 and revelation is bringing GREAT CHANGE to the global mind. We on 22 Sept 2018 start a new 360 days Tun called the ELEVENTH DAY of the 8th Wave, harmonizes and brings abundance, its a time of the appreciation of the growth accomplished. A higher view is seen as we get ready to stand up on our board and surf the ULTIMATE WAVES OF PRIMORDIAL LIGHT, especially as we, since Oct 2011, go into the 9th 360 day Tun in Sept 2019.

Creation exists by Divine evolutionary processes which are always supporting life to grow past what it is limited by, WE CAN UNDERSTAND THIS IN THE TEMPLATE THE 9 LEVEL MAYAN CALENDAR REFLECTS. In terms of the evolution of consciousness the only hurdle for our mind is the immature duality of Time, our mind seems to want to self sabotage until it humbly forgives and surrenders to its center "within", that connect to the hearts infinite frequency of truth and ONENESS. When we align our mind and heart as One frequency we dissolve all that separates and call healing to our SOUL.

By humbly surrendering and forgiving we are always transcending the flaws of the past and growing to higher and higher understandings of purpose and giving direction to our EXPANDING HORIZONS. The Greatest Dilemma for the Mind is the dualistic wobble it finds itself in. According to the Nine Waves of Creation, from 2 million years ago the energies of the SOURCE CREATOR of the infinite Universal Great Mystery seeded the LIGHT of our minds consciousness to initiate its evolutionary processes to becoming self-aware, but paradoxically through these process of time the dualistic wobble has disconnected the mind from the futures ancient Heart, in turn this disconnected humanity from the spirit of nature, hence we are in self destruct mode until we learn to live heart centered.

The GLOBAL MIND is spinning out of the gravitational pull of the physical dimensions previously flawed TIME-WAVES and into the multidimensional Flawless Time-Waves of the NEW EARTH reality. The minds evolution is spinning itself out of the immature aspects of the past

and into the hearts fully mature resonance of TIME.

IT IS TIME "TO BE" IN SACRED RELATION WITH CREATION and counter the wobble. Paradoxically the wobble serves to evolve itself out of the shadows and into the LIGHT. By living off center from the Heart we stay in the wobble and give our SOUL away to the immaturity of TIME, the immaturity of Time is gripped by the mind that has not surrendered itself to the ancient Hearts fully Coded Cosmic Star-Light MEMORY.

The DREAM OF TIME AWAKENS the Truth and liberates the SOUL. Anything you perceive as being out there, is inside you, our reaction to the outer world defines us. If we are humble and embrace it as an aspect of self we heal, by this we are living in service to the collective Soul of humanity and the entire collective Universal SOUL of Creation. The Creators future ancient emanating force of the Universe is awakening your Soul to live pure and true to the LIGHT "Within" you. The LIGHT inside you holds the Coded memory and the records of Time, by these codes we can transcend all the limitations of the physical dimension and learn to live multidimensionally. Meaning we understand how to live spiritually in a physical body.

As we grow and let go the mind we learn to trust ourselves and thus we stalk ourselves and "know thyself" in relation to our reflections. Evolution brings inevitability, inevitably the SUN LIGHT of CREATIONS truth will rise and transmute all that lies hidden in the shadows. The wobble of the physical dimension keeps us bound in the immature past, but the awakening process is stabilizing the effects of the wobble and by this the future is birthing inner PEACE.

As the Universe expands our conscience to wake up and live true to the heart time moves our CREATION STORY to live by its highest vibrations of Cosmic Truth, this effect stabilizes and grounds our mind to the 7 directions of the Medicine Wheel that reflect the multidimensional heart of the Universe. What we once gave our soul to through fear and the expense of our truth is realizing what it took from us, as the collective mind awakens to what it has done to itself, it realizes what it did to the First Indigenous Peoples who hold the spirit of the lands of Earth Mother.

It is now Time for the collective MIND to support the ancient indigenous

heart to stand up and voice the Universal Spirit and live true to their soul by conducting the original sacred ceremonies that the Dreamtime landscapes of the beginnings of Time were conceived by. This ancient ceremony is vital as it will allow our LIGHT to fully transcend the wobble, aligning our awareness to return to its center by spinning itself out of the immature aspects of the mind and into the fully mature resonance of the Heart, we will by this live true to the beginnings of mature TIME, mature time is pulling all to live in right relation with nature, it is bringing our mind to live heart centered.

In terms of the 234 day wave, which is the same size as the 9th Level and can be viewed as equating to a large Trecena, on 26th March we started 13 X 18 days of 1-Baatz/Monkey, initiating the weaving of a new thread of Time, this was also the exact middle of a large Tzolkin of 18 x 260 days that started on 29 Oct 2011 and completes in Aug 2024, this link goes some way to showing you the continuing large TZOLKIN - http://theuniversalfrequency.com/wp-content/uploads/2015/07/8th_9th_Levels_continuation.jpg

In terms of the DAY KEEPING of the Mayan calendar's Timing system, at present consciousness is weaving into 13 days of 1-Keme/Death and into 18 days on a large scale held by 5-Men/Eagle, these 18 days start today 6 June(8-Ben/Reed) and reflect the start of the 74th Night on the Ninth Wave.

On 30 May 2018 the time code started a new 13 day wave with 1-Keme/Death, initiates, transformation and rebirth. Mayan Majix Newsletter shares deeper insight on the 13 day Trecena - http://www.mayanmajix.com/1mma_5_30_18.html

3 June was the 5th day of the 13 day wave with = 5-Oc/Dog, empowers, single minded action and devotion to the highest ideal. This is the "Daily Energy" reading of Poppy from Mayan Missions who has until this day, since 2008 been working with the Dreamspell's off centered Time Keeping of the Mayan calendar. In Poppy's writing she says she wants to work with the TRUE TZOLKIN that honors the true ancient TIME KEEPING of the Maya - <http://www.mayanmissions.com/daily-energies/the-mayan-day-of-5-oc-dog-cimi-trecena>

4 June = 6-Baatz/Monkey, flow and momentum, weaving of Time,

playfully explores and creates.

5 June = 7-Eb/Road, reflects and reveals, opens the road to its destiny, contemplates consequences and safeguards future.

6 June = 8-Ben/Reed, harmonizes, generate new energy, organise and take charge. The 74th Night begins, Reed can be seen to be an underlying energy for these 18 days.

7 June = 9-Ix/JAguar, forward movement, contact with the inner core of Earth.

8 June = 10-Men/Eagle, challenges, heightened aspiration and takes new aim.

9 June = 11-Cib/Vulture, clarity, clears away, receptivity to the cosmic forces.

10 June = 12-Caban/Earth, understanding, movement, innovative intellectual impulses.

11 June = 13-Tijaax/Flint, completes to ascend, mirror of reality, choose the better path.

12 June = 1-Cauac/Rainstorm, initiates, enthusiasm and strong energy. Start of a new 13 day Trecena of Rainstorm, look at the Newsletter of Mayan Majix for more insight.

13 June = 2-Ahau/Light, creates a reaction, honours the memory of time, celebrate the completion of Creation. Completes the 4th Uinal of 20 days of "Stability".

14 June = 3-Imix/Alligator, activates, connect with the primordial beginning, new phenomena from the collective unconscious comes to the surface. Starts the 4th Uinal of 20 days of "Empowerment".

As we go into the VALLEY phase of the 74th Night of the Ninth Wave we reflect, rest and apply healing to ourselves, we finished the 18 day long PEAKING phase of the 74th Day of new LIGHT information and strong energy on 5th June 2018, you can read more about the Ninth Wave here

THE IMPORTANCE OF LIVING TRUE TO THE HEART HAS NEVER BEEN MORE VITAL TO THE MIND, we keep ourselves caught in the wobble otherwise, and this ripples back into our lives to attract an off centered unsettled reality. The NEW EARTH reality is raising the vibrations of herself, she is doing this to neutralize the negative and uplift all with positive changes that serve her best interest, she is revealing to our mind the hidden truth. This is a kind of default setting that she is activating, so as to protect herself. Sometimes to please a situation we live off center from our hearts truth, this keeps us bound by Earth's physical wobble and we might feel trapped. If we live Heart centered we spin our mind out of the trap. The Deer of 2018 is showing us how to avoid the trap, she is bringing stability with her 4 hooves, she is the healing hand, she returns her children to find spiritual strength in nature.

To reclaim happiness we need to move to be centered in truth in our mind. Living off center and unconscious is dangerous because then you can't see the future and what you attract will come from the side, so you won't see it, it will be in your blind spot. Being conscious of your awareness keeps you balanced. One thing we can not do is think that the energies at play are outside of us, everything out there is a reflection of who we are internally, this also means that any judgement is a judgement of self. We are living inside a dream. It is time to commemorate and honour the dream of what we have lived by, as a collective consciousness we are like a tree, but the mind forgets to look at the tree as ITSELF. By offering corn and tobacco to the TREE it is an honouring of life and Creation will sense your intentions and stimulate your growth to align you with your hearts destiny.

The Serpent like movement TIME is shifting our spirit to return ITSELF to living in honour of the Heart, hence the mind has no choice but to live Heart centered. This is causing the greatest DILEMMA FOR HUMANITY, it means that to feel inner happiness we have to come clean, admit our faults and confess all our lies. We can not expect others to confess, we must just do this for ourselves. If we live with attachments and take

things personally we stop our growth, we have to just live as an example of the LIGHT OF THE CREATOR, that shines through us, from inside our multidimensional Heart, to create our reality. They say, your choices define you, nothing is random, you attract everything for a reason. Your CHOICE becomes you, you become what you choose. Be the CHANGE you seek in this world, said Gandhi.

Nothing happens to you, you happen to IT, this is so because you make the choice that attracted IT(One Tree). When our mind lives inside our heart we are ONE TREE(IT), when our mind lives outside our heart our Soul is possessed by the physical dimension, we are scattered and lost, we are disconnected from the internal LIGHT OF OUR SOUL that emanates to mysteriously create our external REALITY. The MIND will always think of something as happening to you, the HEART knows that you attract what happens to you through your CHOICE. You create your own reality and through being conscious of this you learn and grow wiser and stronger, you understand yourself better and are ever grateful for the mistakes as they create the lesson, but you repeat the mistakes if you don't learn the lessons. If we work on HEALING the spirit of self we don't repeat the mistakes, we walk true to the heart and clear away all the ill intent that the unconscious mind attracts. THIS IS IMPORTANT TO UNDERSTAND.

It is not easy to walk true to the heart because we have for so long walked off center, this has created the wobble of TIME, and inadvertently attracted the problems on Earth Mother, but Mother Earth knows this and is ever nurturing her children through the immature density that the evolution of Time grips us by. Our job is to understand this and rise above the problems and heal ourselves so as to heal our world. It has been Evolution that has purposefully created the problems to happen, it created this because our mind has been growing to understand itself, thus our mind was not fully evolved until these times from 28 Oct 2011 onwards, many of Earth's Souls are caught in a lag in and in a sense living in a time before 2011, this is holding back our ascension, as we awaken we move our Light through the birth canal of Creations truth and program our minds by the fully mature Light-Codes of the memory of the NEW SUN.

The Creators Divine Plan is growing and shifting our reality to look "within" to go forwards, before 2011 we looked outwards to go

forwards. Now is the time to reclaim the SOUL OF SELF, and live as ONE TREE OF LIFE, in harmony, balance and PEACE with the reflection of ITSELF. No one is to blame but yourself. If anyone has betrayed you it is a chance heal the aspect in you that attracted this and to rise above the flaw. You are not what they do to you. You are what you do to yourself, you are your choices. The mind separates, the heart unites all as ONE COSMIC LIGHT.
